## **Screening for Appropriate Assessment**

### **Determination under under the European Communities (Birds and Natural Habitats) Regulations, 2011 (as amended)**

#### **CONCERNING HOUSING SUPPLY TARGET METHODOLOGY FOR DEVELOPMENT PLANNING- GUIDELINES FOR PLANNING AUTHORITIES ISSUED UNDER SECTION 28 OF THE PLANNING AND DEVELOPMENT ACT, 2000 (AS AMENDED).**

In order to comply with the requirements of Regulation 42(8) of the European Communities (Birds and Natural Habitats) Regulations, 2011 (S.I. 477, as amended), this determination has been made by the Minister for Housing, Local Government and Heritage relating to the potential for the proposed Guidelines for Planning Authorities issued under Section 28 of the Planning and Development Act, 2000 (as amended) on *Housing Supply Target Methodology for Development Planning* to have likely significant effects on European sites<sup>1</sup>, either alone or in combination with other plans and projects.

This determination has been made following a consideration of the information contained in the AA Screening Report (attached as Appendix A to this determination) and the text of the proposed Guidelines (attached as Appendix B to this determination).

Following an analysis and evaluation of the relevant information, including in particular, the nature of the proposed Guidelines and their potential relationship with European sites that could result from the implementation of the proposed Guidelines, as well as considering other plans and projects, and applying the precautionary principle, the Minister has agreed with the

---

<sup>1</sup> As defined by S.I. 477 of 2011.

recommendation of the AA Screening report that there is no possibility that the proposed Guidelines would be likely to have any significant effects on any European sites.

The principle reasons for this conclusion included the lack of geographic specificity in the nature of the Guidelines and the fact that the scale of the proposed delivery of housing targets has already been assessed in the National Planning Framework and the Regional Spatial and Economic Strategies and therefore the Guidelines would be implemented in the context of these previous assessments.

Therefore, Stage 2 AA is not required for the proposed Guidelines.

The Minister for Housing, Local Government and Heritage having carefully considered the information in the AA Screening Report and having regard to the advice of my officials, agrees with and adopts the reasoning and conclusion of the AA Screening Report. The Minister hereby determines pursuant to Regulation 42 of S.I. 477 of 2011 and for the purposes of Article 6(3) of the Habitats Directive that on the basis of objective information, the proposed Guidelines, individually, or in combination with other plans and projects would not have likely significant effect on a European site and therefore an appropriate assessment is not required.

**Darragh O'Brien, TD**

**Minister for Housing, Local Government and Heritage**
